DETAILED ACTION

1. Newly submitted claims 7, 9-13 and 20 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Newly submitted claims 7, 9-13 and 20 are directed to an inertial sensor comprising a plurality of signal conditioning circuits connected to associated control devices, whereas applicant has received an action on the merits for the originally presented invention to an inertial sensor comprising a plurality of signal conditioning circuits connected to a device for combining signals from the plurality of signal conditioning circuits into a single output signal. Note original claims 5, 12 and 16. The claims are directed to patentably distinct species. Currently, claim 14 is generic, but claims 7, 9-13 and 20 do not include all the limitations of an allowed generic claim as provided by 37 CFR 1.141.

Since applicant has received an action on the merits for the originally presented species, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 7, 9-13 and 20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 14-17 and 21 are allowable over the prior art.

3. This application is in condition for allowance except for the following formal matters:

Claims 14-17 and 21 are objected to because of the following informalities: In claim 14, line 4, "said sense element" should be changed to --said angular rate sensor-- in order to have antecedent basis. Likewise for "said sense element" in claim 17, line 3. Appropriate correction is required.

Art Unit: 2856

Claims 7, 9-13 and 20 are directed to an invention non-elected by original presentation. Applicant is required in response to this action to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
